Grow a Sunflower

Dear Parents/Carers,

World Down Syndrome Day is on 21st March this Year. The theme is 'Grow a Sunflower' to teach the children that not all people grow at the same time but they all grow eventually.

As our topics in Nursery and Reception are based around growing this half term we felt that we could get involved and help raise some money for Downsyndrome awareness.

We are asking all children to donate £1 via ParentPay by Monday 18th March. During this week the children will then plant their own sunflower seed. We will provide the pots, compost and seeds.

We will keep them in school for a while so that we can observe their growth and compare them as part of our learning and then we will send them home for you to enjoy.

If you would like to volunteer during this week to come and do some planting with us then we would be very grateful. Please see class teachers to arrange a date and time.

Yours sincerely,
Mrs N Stringfellow
Assistant Principal & EYFS lead
