Doncaster Children's University
Passport to learning

Dear Parent/Carer,

Sandringham Primary School have been part of the Children's University since March 2018. Children's University is a national charity that awards certificates to children from Reception to Year 6 who spend time engaged in positive extra-curricular activities.

The children collect hours towards national certificates and after earning the first certificate for 30 hours, the children and parents are invited to a graduation event at the Doncaster College Hub which will take place at the end of the school year.

Your child has come home with their first passport which can be used to start earning hours straight away. Inside the passport you will find the login details which should be used to access your child's online account. On this account, you will be able to search for local activities/clubs etc, your child will have access to online activities that provides them with hours for their passport and you will be able to see your child's progress along the journey.

All hours collected in the passport should be input onto your child's online account by adding a 'stamp' – physical passports are only used to record your child's hours until you are ready to input them online - this way, you don't lose track of hours earned. Only hours which have been input online will count towards the end of year graduation.

When starting a new club, e.g. swimming lessons etc, you should ask a member of staff at the club for their 'Children's University Stamp Code' – this is the code you will be required to input online.

Below is an example list of clubs/activities you are able to get codes for, but please visit www.childrensuniversity.co.uk for more information and details on activities available;

Clubs
